Website: corryforschoolboard.blogspot.com

Age: 62

Occupation: housewife

Residence: Cedar City

Years at residence: 33

Qualifications:

How do you condense 20 years experience into 200 words? Each year I have worked to be a better board member than I was the previous year. I've worked at developing a high level of trust and acceptance for the school board and district personnel within the schools and county. I helped initiate programs that are changing the way our children are taught and how we measure their learning. I strive to ensure that we hire the best employees, provide them with the best training and create a supportive environment to encourage creativity. My husband and I raised 6 children. We have 18 grandchildren, 3 are currently enrolled in the ICSD, 11 will join them over the next 4 years. I am as passionate about having a good education available for my grandchildren as I ever was about my own children. I know what it takes to make a good school district and I am willing and eager to do it. I serve on education committees at the local, region and state level but I am most proud that I was a Reading Grandmother in my granddaughter's 1st grade last year.
